

Summer Solstice 2020 Ayni Despacho Ceremony

The components of a Despacho are physical and spiritual, tangible, and intangible. They represent what is part of our lives now, and our intentions for what is to come next. The act of harmonizing with nature is done by engaging ourselves in a sacred Ayni or spiritual act of reciprocity with the energies of the Universe. Just as in the physical world we receive help when we give help to others, in the spiritual-energetic world, the same law applies.

You are invited to celebrate your divine right to create, manifest, and live in right relationship with Mother Earth and all our relations in a tangible expression of gratitude. We will be working outside in beautiful northern Michigan to create our prayer bundle. Please bring your own lawn chair and your beautiful intentions as we call forth our choices for the reality we choose to create and live in. Fire ceremony will immediately follow Despacho.

Date: June 20, 2020
